8 Years in APAC & Europe

Professional Experiences

2018 – 2020

Global Supply Chain Specialist

FESTO SE & CO. KG · ESSLINGEN, GERMANY

- Managed international material planning and logistics while redesigning return shipment processes to improve delivery reliability, efficiency and data transparency.

2020 – 2023

Process Expert → Head of Material Management

FESTO PTE. LTD. · SINGAPORE

- Led supply network planning across ASEAN & Pacific, improving delivery performance and inventory levels by 20%.
- Led 4-member team in Material Management and Supply Network Planning across ASEAN and Pacific operations.

2023 – 2025

Senior SAP Consultant

CONTINENTAL AUTOMOTIVE PTE. LTD. · SINGAPORE

- Led end-to-end SAP S/4HANA implementation across Purchase-to-Pay lifecycle, driving global process transformation.
- Managed configuration, data migration, system optimization, and successful go-lives for complex manufacturing plants globally.

2025 – present

Lead IT Project Manager

ROBERT BOSCH (SEA) PTE. LTD. · SINGAPORE

- Lead SAP BTP initiatives for global digital ordering, building middleware integrating customer frontend with SAP ERP via APIs.
- Directed pilot go-live of commercial return solution on SAP BTP, enabling automated return submissions across East Asia.
- Managed data-driven reporting with backend integration and front-end dashboard visualization.

Skills & Education

Expertise at a Glance

- 01

Driving Digital Transformation

Today, I excel at the intersection of business and technology as digital solutions expert, shaping SAP BTP-driven integration, data analytics, and process innovation that turn enterprise strategy into measurable outcomes.
- 02

Global Supply Chain Roots

Launched my career at Festo's global headquarters in Esslingen, Germany, managing international material planning and logistics flows spanning multiple continents.
- 03

Rising into Operations Leadership

Advanced to Festo Singapore, where I led supply network planning across APAC as Process Expert before being promoted to Head of Material Management — owning regional performance, teams, and strategy.
- 04

The Pivot into Enterprise IT

Transitioned from operations into technology, delivering end-to-end SAP S/4HANA implementations at Continental Automotive, then stepping into IT Project Management at Robert Bosch to lead cross-functional data driven digital initiatives.
- 05

Bridging Cultures and Teams

Fluent in three major languages — English, German and Chinese, enabling seamless collaboration across diverse, global stakeholder landscapes.

"I bring the rare combination of deep SAP technical expertise and hands-on supply chain leadership — bridging the gap between business and technology to turn transformation ambitions into measurable outcomes."
